Mrs. Wickersham Gives | Julia Murdock Says Miss Kennedy Gives Mother Credit for Success

Actress Has Won Fame As "Little Miss Brown" At Nineteen.

There is always something interesting o be found out about a young woman who, though still in her teens, has accomplished as much as Miss Madge Kennedy, the little girl who plays the part of "Little Miss Brown" in the play of that rame which is being produced at the Belasco Theater this week. The little girl who causes all the trouble and makes the most of the delightful little play is just nineteen years old, but she has already made a name for herself in the theatrical world. And she is one of the very few actresses who can play as young as she looks and who is as young as she acts. As nearly everybody has remarked at one time or an-other, nothing is so hard to emulate as youth. Some actresses never achieve i youth, some actresses never achieve it until after they are forty. Hence the complete wonder of this little lady. She presents a perfect picture of the youth she has with her, and in the play in which she is appearing this week she scales the heights of naturalness in an snort of marvelous.

I walked into her dressing room the other evening after I had seen her in the first and second acts of "Little Miss Brown' to chat with her awhile and to nuccess. It is contained in two words-"my mother."

Says Mother Is Secret

Of Her Success. I can't help calling her Miss Brown. Everybody does. "Nobody calls me Miss Kennedy any more," she said, as she led me in and settled herself opposite me in a big chair. "I am Miss Brown to everybody now, but I don't mind that, if they only like the play. I am really seared to death to be in-terviewed," said Lattle Miss Brown, and she looked at me with those great big eyes, rather dreading the questions I was going to ask her. When it dawned to improve on nature.

The gnomes live so deep in the earth that the fairles seldom meet them, and so they really forgot and did not in the least intend to slight them.
